PROFILE

A Registered Dietitian turned UX Researcher/Designer with experience educating, collaborating, conducting motivational interviewing, and coordinating care within the healthcare industry. Eager to create positive change in an ever changing world, I am dedicated to the user centered approach. Detail oriented with a focus on balance and harmony.

EXPERIENCE

Senior Clinical Dietitian

BRADLEY HOSPITAL | MARCH 2008-CURRENT | RIVERSIDE, RI

- Initiated the development of weekly nutrition classes while successfully executing the delivery of the program.
- Sought further education to successfully develop and implement a specialized feeding program to address food selectivity in the autism population.
- Co-chaired a hospital committee to address lack of exercise within the patient population, implementing a hospital wide movement initiative.

Nutrition Consultant

RHODE ISLAND TRAINING SCHOOL | JULY 2017-CURRENT | CRANSTON, RI

- Conducted a needs assessment, including research, interviews, and analysis to provide specific recommendations for overall improvement in the quality of nutrition care.
- Coordinated student nutrition intern experiences to help Food Service Director develop improved presentation of menu.
- Evaluated facility menu to assure meeting School Lunch guidelines providing recommendations to satisfy regulations.

EDUCATION

Certified UX Designer

CAREERFOUNDRY | MAY 2018-CURRENT | BERLIN, GERMANY

- A year long intensive UX Design course focused on UX fundamentals, foundational designs, usability, research, and analysis.
- Created and designed a tattoo app, InkTank, and a fitness app, Fit Able, employing a user centered approach while utilizing tools such as Sketch and InVision.

BS Degree in Nutritional Science

UNIVERSITY OF NEW HAMPSHIRE | SEPT. 1992-MAY 1996 | DURHAM, NH
